Summary

Frontend Developer with 2+ years of agency experience building responsive and production-ready web interfaces. Skilled in React.js, Next.js and modern frontend development, with a focus on clean UI, performance, and usability.

Technical Skills

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frameworks & Libraries: React.js, Next.js, Tailwind CSS

Animation & Interaction: GSAP, Framer Motion

Tools & Platforms: Git, GitHub, Figma, Adobe Photoshop

Experience

CreativePixels

August 2025 – Present

Frontend Developer

Karachi, Pakistan

- Designed and developed the agency's website from scratch in Next.js, taking it from Figma designs through to full deployment.
- Built interactive animations using Framer Motion to create a polished, engaging user experience.
- Integrated Sanity headless CMS to power dynamic content, enabling the team to manage updates without touching code.
- Optimized the site for performance and worked closely with SEO and PPC specialists to support their technical requirements.
- Collaborated with designers to translate detailed Figma files into accurate, production-ready interfaces.

RadixTech

October 2024 – August 2025

Frontend Developer

Hyderabad, Pakistan

- Developed RadixTech's company website in React, integrating a blog system via the WordPress REST API.
- Built the Nettax project frontend in React and TypeScript, pulling blog content through the WordPress REST API.
- Developed a MEAL (Monitoring, Evaluation, Accountability, and Learning) product dashboard for non-profits using Next.js.
- Learned and applied REST API integration to connect frontend interfaces with headless WordPress backends.
- Worked directly from design inspiration rather than fixed mockups, translating references into working interfaces and adapting content to fit.

Frotype

July 2024 – October 2024

Frontend Developer

Hyderabad, Pakistan

- Built responsive websites for business clients, developing modern, component-based interfaces from design to deployment.
- Developed client projects using React and Next.js, with Tailwind CSS for fast, consistent styling.
- Wrote clean, reusable components and strengthened core frontend skills across HTML, CSS, and JavaScript.
- Adopted Git and GitHub for version control, managing repositories and day-to-day push/pull workflows.
- Deployed projects to Vercel, handling builds and going live independently.
- Quickly ramped up on a modern stack, gaining a strong working command of React in a short period.

Teqsol

October 2023 – July 2024

Junior Frontend Developer

Hyderabad, Pakistan

- Developed responsive websites for clients across marketing and business sectors, taking projects from design through to live deployment.
- Translated UI/UX designs from Figma into clean, hand-coded websites using HTML, CSS, and JavaScript.
- Built layouts with a focus on clean, maintainable code and cross-browser consistency.
- Created interactive animations using GSAP to enhance user engagement and bring designs to life.
- Optimized sites for performance and page speed to improve load times and user experience.
- Applied basic on-page SEO practices to support search visibility for client sites.
- Worked remotely with a UK-based manager, collaborating and discussing project requirements throughout the build.

Education

Aptech Education

Advance Diploma in Software Engineering

August 2022 – November 2025

Hyderabad, Pakistan

University of Sindh

Bachelor of Commerce

February 2019 – February 2022
